## Modern & Best-in-Class ERP

# Take full control of your operations

### Modern Technology ...

... designed to keep up with your team, customers & partners, built with the latest technology, **OneOffice ERP** will empower your operations with all the tools you need, all at your fingertips.

Your operations will be more **efficient**, your data more **secure**, and your **costs** will go way way down.

### Powerful Features

- ✓ Accounts, HR, Payroll, Inventory, Assets, POS ...
- ✓ More complete than all legacy ERPs
- ✓ Suppliers fulfill orders online
- ✓ Invoice customers & get paid digitally
- ✓ Easy to use & simple migration

### Most Complete

Contains all the modules your organization needs ... in one single platform.

### Most Secure

Strongest security in the industry. The only solution you can host on your own private server!

### Most Cost-Effective

Save 50 - 70% off your IT, thanks to Open-Source and Huawei Cloud. Less servers, no patches, or breaking updates ...
